- Support to ensure that families who are bilingual or who come from homes where English is not spoken have the opportunity to achieve their full potential.

SAINT MARY'S FAMILY CENTRE

SPECIAL NEEDS STATEMENT

At St Mary's Family Centre we believe every child benefits from the stimulation they receive from contact with other children and those with physical or learning disabilities are not exception. We hold a clear and positive commitment in providing opportunities and services for children with Special Needs. In this, the Centre aims to provide opportunities whether physical, intellectual, social or emotional as to minimise the effect of the disability to enable the children to reach their developmental potential.

We are committed to the belief that contact at an early age facilitates understanding that all people have equal value irrespective of ability or mobility. St Mary's Family Centre has regard for the DfEE Code of Practice on the Identification and Assessment of Special Educational Needs. Centre staff make provision to link Special Needs programmes into the activities of the full Centre Curriculum programme and allow space and time for completion or repetition where necessary.
